Thank you for calling North Star Heating. This is Brenda speaking. How can I help you today? Brenda, my name is Sam.

My furnace just cut out and I was hoping you could send someone over here. Hi Sam, got it. When you say it cut out, do you have absolutely no heat at all right now or is it still blowing a bit of air? It's completely off.

Okay, so no heat at all. Thanks for letting me know. Just to check Sam, you are not smelling gas or like a burning or electrical smell and there is no smoke or flooding around the furnace, right? Yeah, no, nothing like that.

Alright, thanks for confirming that. We should get someone out there as soon as we can. Are you hoping for a visit today or are you okay with the next available slot, even if it is like tomorrow? I was hoping if you guys could send someone today.

Yeah, that makes sense. We will treat it as urgent for today. I have an opening this afternoon between 1 and 4. Does that window work for you? Yeah, that works.

Perfect. Just so you know, that appointment is during regular hours and the diagnostic rate is \$129 an hour. Want me to go ahead and book that in? Sure.

Alright, what is your full name, Sam? First and last. That's Sam Robinson. Thanks, Sam.

And the service address, street number, street name and city? That's 163 6th Avenue up in Markham. Thanks. And best phone number for the technician to reach you? That'll be 672-888-1407.

Okay, I have 672-888-1407. Is that right? Yeah. Great.

And best email for your confirmation? That'll be showdemo at gmail.com. Got it. showdemo at gmail.com. Before I lock this in, I have Sam Robinson at 163 6th Avenue in Markham. Phone 672-888-1407.

Email showdemo at gmail.com for no heat, furnace not running today between 1 and 4. The rate is \$129 an hour. Does all that look right? That looks great. Awesome.

You are all set, Sam. You are booked in for today between 1 and 4, and the technician will give you a call before they arrive. Anything else you need help with right now? No, and that'll be it.

Thank you. You are welcome, Sam. Thanks for calling NorthStar Heating, and we will have the tech reach out before they head over.

Have a good rest of your day and stay warm. Thank you. Bye-bye.
